

T 10/1 Adv

With the new T 10/1 Professional we enlarge our dry vacuum program with a machine made especially for the target group building service contractors. It involves a pluggable power cord (12 m), an antistatic bend, a power cord integration, an extra strong main filter for vacuuming without filter bag and a coloured plug.

1 Large, round permanent main filter of washable fleece

- Extremely strong and dense enough to allow vacuuming for longer times without a filter bag.

2 Maintenance-friendly

- The cable can be replaced quickly and easily by simply loosening 2 screws. This saves time and service costs.

T 10/1 Adv

- Plug-in power cable
- Parking position for floor nozzle
- Extra strong permanent main filter
